

Waders Hi-Vis with S5 safety boots

Made of PVC and polyester with double-welded seams, straps adjustable by stainless patent buckles. The material ensures high flexibility even at low temperatures and offers more safety for the emergency services due to its highly visible, luminous yellow colour. Welded boots according to S5 standard with strongly profiled soles, anti-slip, reinforcement ribs on the shaft, reflex point on the heel and with anti-puncture sole and steel toe cap.

Features:

- luminous yellow color for more safety of the emergency forces
- heavy quality, sturdy and durable
- Safety boots according to EN ISO 20345 - S5 SRC
- Boots 100% waterproof welded to the pants
- Material retains high flexibility even at low temperatures
- Reinforced knees
